SSL CERTIFICATES

Cost effective security

REGULAR SSL

- 🔒 <https://yourdomain.com>
- 🔒 <https://www.yourdomain.com>

• BTN 3,000 / Year •

WILDCARD SSL

- 🔒 <https://yourdomain.com>
- 🔒 https://*.yourdomain.com

• BTN 12,000 / Year •

BENEFITS

- SSL certificates are very important for everyone running an online store - they are used to encrypt the connection between the visitor and the website, which is vital if the owner of the store plans to accept credit card payments.
- An SSL certificate will ensure that all the data sent from the user to the host server will be encrypted and can be read by the server only.
- SSL certificates are also useful when it comes to login forms - they will ensure that the customer will log into a secured environment and that their username and password will be sent safely over the Internet.

FEATURES

- The SSL certificates provided by aBitHosting are based on the Comodo SSL certificates -
 - 256-bit encryption
 - \$10 000 USD warranty
 - A static site seal for your website
- SSL certificates are issued within up to 5 hours after the purchase.

DEDICATED MAIL HOSTING
